

President's Report - March 11/2019

Last weekend we had our first Fun Rec Meet at NAC. Overall it was a success, with some room for improvement if we do it again in the future. We had a total of 11 Rec athletes participate.

We managed to pull off some photos to participate online with Pink Shirt Day - we even got a couple shout-outs and re-grams from Synchro BC and Coast Capital, who were donating money to an anti-bullying cause for every tag of them in pics (which we did). Seemed to be fun team-building for the athletes

I have been working a bit on a simplified end-of-year survey to send out to all club athletes. We are looking for feedback for programming as well as current intentions for next year's participation with us.

I started to work the fact that we are going to need new Board members next year into emails and am hoping that by planting the seed, we may have some positive response. I do ask that the current Board think about what role they would like to have next year and ideas on who may be suitable and interested in replacing them.
