

## **President Report May 13th**

Watershow was a success! It was well-attended and the smiling faces at the social afterwards were great to see.

I have looked into the pool closure for this year, as there was a rumour that it was going to be longer than normal. And though it is a bit longer, it does not affect next season (though to Sept 9th)

We have received Letters of Intent from almost all coaches. This provides a lot of options for us for the upcoming season.

We received 22 end-of-year surveys back from athletes, including all levels. Overall the feedback was positive with a few good ideas that we may try to implement for next season.

The RDN Commission has been dismantled and is now the Oceanside Services Committee. Heather pulled together a letter that has been emailed by the cutoff date for their meeting this Thursday. Next meeting September. I feel it's important for us to stay in touch with this group as much as possible to help in the development of any future updates and new builds of pools in our community.
