

President's Report Jan 11/23

Not a lot to report (that I can think of) that is new for us right now.

We received congrats and thanks from BCAS for getting our COP (Club Operations Policies) Compliance Requirements completed before the December 31st deadline. Becky has made notes in our Google drive for future Boards to help them complete the Registration form at the start of the year and know what requirements we are expected to fulfill.

We had a volunteer fundraising coordinator step-up, but unfortunately, it was unable to work, so we are still without an official fundraising coordinator.

Thank you to Carol for getting information to the Newspaper for the AquaGo! Fall Session end (I did not personally see it but did hear from a few people that they had seen it - not sure if it was in print or solely online).

I have met with Mark in regards to the website and we looked through our current version via Zoom to discuss the vision, including clarifying what HAS to be there, what we WANT to be there and how to clean up the rest. Hopefully we will have the new site in tip-top shape for start up of next season!

A few points to focus on for the club in the coming months:

- Growing AquaGo! numbers. They are needed for our club to grow and continue to allow the Competitive program to exist.
- Expanding the AquaGo! program to finish in line with our Competitive athletes' season and potential Summer Camps
- Growing the volunteerism within the club and/or starting the process to hire a club manager
- Planning end-of-season event to celebrate our athlete's accomplishments (not forgetting the end of Winter Session of AquaGo! as well!)

Cheers
Jessica
