

Head Coach Report Jan/25

Our winter social very low key but lots of parents said they really enjoyed themselves and the girls had a lot of fun just being together with their teammates. I think we are a unique club because we get together and do our little socials. There is a sense of belonging and parents told me that the swimmers liked having an event that was theirs as appose to an adult function. We have some desserts and lots of juice boxes left over from the winter social to share for our year end social.

We had a big turnout for our winter watershow. It is always a great opportunity for the swimmers to perform. Parents really enjoyed seeing the routines.

I have been told by NAC that our swimmers are not allowed to use the hot tub after practice. If they wish to they need to buy an admission ticket to the pool. Cupboard has been built at NAC. There have been a few adjustments but otherwise it is great to have our equipment locked up while it is not in use.

Training meet #3 entries have been done. I have entered LComp swimmers because the deadline was Jan 12 but will discuss attending with all the families as to whether we attend or not. Competitive swimmers will be attending.

I have Ravensong suits for our two new athletes and will or have given them out.

Swim-a-thon is set for Tuesday Feb 25 during regular swim practice times for each group.

Tabi has finished her commitment with us for this season. She will return when her schooling is done. Carol has taken over coaching the master swimmers.

Carol MacFayden
