

Criminal Record Checks

Confirmed that our Executive Board members do need to have the CRC done. We can have the check done online through BCAS. I will be sending further information out in the next few days.

Fundraising

I reached out to Jenny to arrange to have the fundraising book returned and to gather any info on the Soup and Meat fundraisers that she set in motion already. Also reached out to Erin to see if there is any contact info to share about setting up for bottle drives. I will be sending an email out to the club in the next few weeks outlining the current fundraising opportunities and inviting club members to volunteer to run a campaign or two to receive volunteer credits.

Season Startup / SITl

We currently have 3 signed up for the SITl, and 3 signed up for AquaGo! There are 3 others who sent inquiries to be added to our waitlist, but haven't signed up yet.

We really need to boost our SITl attendance somehow, not sure how the Google Ads are coming, but wondering if we should be trying something different with FB? Or any other suggestions?

Parent Info table - SITl night

Need to start planning who will attend and what we need for this info table. I can be there, but would like additional backup to help field questions.

School board announcements

I prepared a flyer for the SITl and applied for a posting on the community page of the SD69 website. It has been approved, and they will also post our website info. We couldn't get the SITl mentioned with the school announcements as they reserve those for SD69 news.

Newspaper article

I reached out to the PQBNews to see if they would put in an article about the SITl, they have confirmed that the story is online, and will try to find space in the paper to print it as well.

Insurance

The D&O insurance is processed.

BCAS Cert of Insurance has been received and passed to the appropriate locations.

Both documents are saved on the drive.
